JAHID HASAN

Frontend Developer & Junior Software Engineer

Sylhet, Bangladesh · jahidhasan.metro@gmail.com · github.com/jahidjubaer · linkedin.com/in/jahidjubaer · Updated September 2026

PROFILE

React-focused frontend developer and junior software engineer from Sylhet, building accessible, responsive interfaces while expanding into full-stack systems and AI-enabled products. CSE graduate with a competitive-programming foundation of 250+ solved problems, and hands-on experience carrying web applications from design through deployment. Open to frontend and junior software engineering opportunities.

PROJECTS

Sarabo — Electronics-Repair Service Platform — Sole developer

Live client · Live API · Client repository

- Built end-to-end: React client, Node.js/Express API, MongoDB persistence, Firebase authentication, separate client/server deployments.
- Multi-role workflows for customers, technicians, and administrators: repair-request lifecycle tracking, technician assignment, quotations, notifications, reviews, and a Stripe payment flow.

Bangladesh Landscape — Travel Portal (in development)

Client repository · Server repository

- District-by-district, Bangla-first travel portal: AI-assisted tour plans (Claude/Gemini with mock fallback), verified guide and partner bookings, moderated blogs, interactive Leaflet maps.
- React 19 + TanStack Query frontend; Express 5 + Mongoose API with JWT httpOnly-cookie authentication and admin operations.

Bang Learner — Local Skill-Exchange Platform

Live site · Repository

- Responsive React platform for offering, learning, and trading skills locally — Firebase authentication (email/password and Google), protected routes, skill browsing and session booking.
